

§ 7

The mission of our School is to create the environment in which the students themselves want to gain knowledge and develop their talents and interests. It is a dynamic, modern school combining its rich educational offer and innovative educational solutions with continuing over 120 years of tradition of providing excellent quality of teaching and upbringing.

2. The didactic and educational aims of the Teaching Staff focus on creating socially desirable attitudes:

- 1) open-minded and kind people,
- 2) understanding human subjectivity, i.e. making students aware of their own self-esteem and respecting the value and dignity of others,
- 3) ability to cooperate and responsibility for the common good,
- 4) a human/an individual with broad intellectual horizons.

3. The school recruits hard-working, ambitious, talented youth and therefore sets the students high educational, ethical and moral requirements which strengthen self-awareness and shape their personality developing the young person's potential.

Our concept of education is deeply rooted in solidarity with universal and traditional values: respecting the applicable law as well as the standards, customs and attitudes accepted in our school.
