

PRZYKŁADOWE ZADANIA SPRAWDZIANU KOMPETENCJI JĘZYKOWYCH DO KLAS DWUJĘZYCZNYCH

1. Przeczytaj tekst i odpowiedz na pytania:

PASSAGE 3

Solar water heaters

Solar panels are a familiar sight, particularly in hotter countries. Essentially they heat water which is piped round the house. Technology has been improving over the past few years and you should expect to pay about £2,500 for a medium-sized system. A government grant of £500 is currently available and you should expect to save around 8% on your heating bill. The annual carbon saving is also 8%.

Wind turbines

Wind speeds of 20kph or more are needed for this technology to be effective. Small turbines are 1.75m in diameter and supply 1kW of power. Large turbines are 2m in diameter and generate 1.5kW worth of electricity. They generate 35% / 70% of your electricity needs. The cost? £1,500 for the small turbine, £4,500 for the large, but government grants are available of £500 and £1,500 respectively. The CO2 saving for small turbines is 15% and for large ones 30%

Ground source heat pumps

This technology draws heat from the ground, which is piped underground to your home. This can supply under-floor heating or power radiators. You need power to run the system, and you get 4 units of power for every 1 unit of input. A 10kW unit should save all the gas you would have used, but depending on your electricity use the annual energy saved is variable. The initial cost is in the region of £10,000, with government grants of £1,200 on offer. The annual carbon saving is around 33%.

1. The estimated initial cost of installation is the lowest for:
 - a. solar water heater
 - b. small turbine
 - c. large turbine
 - d. ground source heat pump
2. Carbon saving is:
 - a. the total set of greenhouse gas emissions caused by an individual, event, organisation, or product
 - b. the amount of money saved by installing a particular device
 - c. the amount of carbon that is not used (thus reducing carbon emissions and global warming)
 - a. the number of renewable energy sources installed in a household

2. Uzupełnij zdania, wykorzystując podane w nawiasach wyrazy w odpowiedniej formie. Nie należy zmieniać kolejności podanych wyrazów, trzeba natomiast – jeżeli jest to konieczne – dodać inne wyrazy, tak aby otrzymać logiczne i gramatycznie poprawne zdania. Wymagana jest pełna poprawność ortograficzna wpisywanych fragmentów.

1. They (not / let / we / to go) into the club as we were under age.
2. Martin (try / lose / weight) for a week now.

3. Wpisz czasowniki w nawiasach w odpowiedniej formie.

1. I'm really grateful. If you (not lend) me money, I (can / buy) this reclining armchair.
2. I'm pretty sure the Unfinished Symphony (compose) by Schubert.

4. Utwórz pytania do podkreślonych części zdania:

1. They cut the cake into **six** pieces.

.....

2. **Alice's** aunt works in the dean's office.

.....

5. Uzupełnij zdania odpowiednimi formami słów zapisanymi dużymi literami.

1. Police working on solving the bank robbery have by chance
a plan to murder a leading politician. COVER

2. You paid \$25 for a simple breakfast?! They have certainly you! You should go
back and complain. CHARGE
